instability. A pervasive sense of injustice may arise even at this time.

During her pregnancy, your mother found herself in a changing environment - be it because of travels, or moving in or out of homes, or separations of some kind. This shifting context has left tracks within you.

A child, you have seen your mother with more head than heart. She had a masculine side, overshadowing the emotional marks and sensitive listening. This does not prevent you from idealizing, even if this lack of representation maternal femininity. An adult, you will be attracted to women more than men, who are able to assert themselves.

You are characterised by a heightened and mystical temperament. You need to establish yourself within a group by expressing great ideas. you like to relax. You're the inspiration. You are fond of giving yourself moments of relaxation, meditation, because it is in the withdrawal into yourself, even the power of prayer, that you find your balance and ways to find greater stability. You gain height after having made a sacrifice, loneliness. States of anxiety, of gloom may generate a subsequent spiritual elevation.

YOUR MAIN QUALITIES

First of all, you have a strong personality and are usually very positive. You are enterprising, direct, at ease as soon as initiatives must be taken. Furthermore, this yearning of committing yourself is particularly blatant everytime you take a step back or whenever your freedom is being jeopardized. You adapt yourself easily. You are appreciated for your sense of dialogue, of sharing. You are sensitive. However, you find it easier to cooperate whenever you commit yourself first, and others must follow. You are sociable by nature. People appreciate you, even more, they look forward to your company. You make friends easily. You are clever, creative, sometimes gifted in arts. Furthermore, your sociability is sometimes slowed down by the difference between your way of considering things and your way of achieving them. Between the idea and the achievement, the gap is sometimes difficult to bridge. You are so loyal that people trust you easily. Sometimes your skills for method and organisation are appreciated. You often like order. However, you can prove flexible concerning the principles of method and organisation. Human relationships must prevail and not become hindered by purely materialistic issues.

Your adventurous personality, your yearning for freedom will not be granted all the space they're seeking. You will have to make shift with the challenge of number 5. Moreover, you mostly live this constant craving for new horizons from within yourself. You live your freedom and your sexuality in your head, which is far from being simple. However, this could lead you towards a new state of consciousness. Yoga and sophrology can become means to discover new sensations.

People like to confide in you. They come to you for advice or to be cheered up. You know your family duties well (please note that the word family must be taken at large, i.e including a circle of friends). In fact, calm and peace are very important to you, at home or at work. You wish to share responsibilities and to work towards more harmony with your partner.

On another level, your skills to think things over and to stay still in any circumstances will be tested when the challenge of number 7 comes about. But challenges are made to be accepted, aren't they? In addition, you'd love to share your inner space with your partner as long as he/she keeps the secret. You have faith in certain things but, except for your trust in worthy friends, you don't like to expose your ideas to everybody.

You adopt a moral stance towards financial and social matters. You are reliable. You know how to control the desire for power and stay righteous. I'll add that the more you resort to advice, the more you cooperate, the better you will reach a certain form of power.

You care for others. People like you, because you prove to be able to understand and love others, to take care of them and comfort them. Subconsciously, you know right from wrong. You prove to be strong enough to actually act so as to display your ideals. You find it sometimes frustrating, because you are striving to go even further.

YOUR SOCIAL IMAGE

The following analysis concerns the influence of your current name de Gaulle with your personality, especially regarding your social relationships. In some cases, these will come into conflict with your deeper nature. They then cause an inner duality.

Under the influence of your current name, you are independent and turned towards within. You're imaginative and intuitive, you devote your energy to exploring both the physical and the spiritual. You have the soul of a seeker, whatever your field of exploration may be. Put to profit your analytic talents. You are now seeking peaceful relations. You strive for tolerance and harmony. The influence of your current name does not change your true nature.

YOUR PREDISPOSITION

Given the above analysis, we will now carry out a synthesis of all these different influences. Firstly you are one of those people who appears concerned by the lives of others. Idealistic, generous, a good speaker, a teacher at heart, good at art, you are nonetheless impressionable and take your strong emotions into account, you have the art of disguise. You find it difficult to carry out long term relationships, be it in love or in business matters. If your projects need collaboration, you'd better choose a partner who is willing to 'play second fiddle'. You are perfectly able to collaborate, be it in professional or in heart matters. You are excellent at facing up professional responsibilities. You love to move about, to go places, to live new diverse experiences, and yet you are hard working. You love your family life and its responsibilities, yet you long to move around, living varied experiences and going out. This strong desire often keeps you away from home. You like to think things over before you make any decision. You know how to strike a sound material balance around you.

YOUR DESTINY

Since your birth, the path you have chosen shows that you should be able to tell right from wrong. Of course you will have responsibilities to stand up for. Be positive and ambitious, and you will succeed.

You are on a life path that enables you to widen the vision you have of the world and yourself, and to accept it. You are such a demanding perfectionist that the slightest problem annoys you to a point that you feel guilty. You can assess your own potential and other people's potential, but your nature is too impatient, you wish you reached your goal immediately, you are unable to wait for gradual improvement. You start by regarding everyone and everything as a promise, until you are quickly disappointed, because no one and nothing fulfills your ideal expectations. Learn how to step back, criticize less, discover more the lightness of being. By doing so, you will let your remarkable energy flow and carry out your projects on behalf of others.

You are asked to accept mistakes in the long run. You tend to give a lot. You are dedicated, easy-going and kind with outsiders coming into your circle of friends. Beware of certain persons who might want to take advantage of your benevolence and generosity. You must think about yourself too. You are the ideal associate. Once you are able to accept the idea that even quality projects can hold a few drawbacks, and more generally speaking that errors can enable evolution, you will eventually have a much easier life. In your case, your family environment is likely to lead to conspicuous impacts on your life path.

You have all the necessary resources to carry out your projects. By acting step by step and by

emphasizing your strength and abilities to analyse, you can give and receive back.

Your life path is strongly colored by other aspects. You are driven by your ideals and you are very creative, you will therefore feel the urge to help others, at a certain point of your life. Make sure you keep pragmatic and balanced, for you tend to dream too much. You imagine a world your way and you then want the real world to embody your dream. Aren't you too ambitious? Your perfectionism and your low self-esteem are challenges you must face. Or else your creativity will not be able to flow as you'd like it to. Your participation in this world may then not be very constructive. You must therefore give life to your visions, through a certain discipline, for your desire to experiment and explore is sometimes too conspicuous. Accept other people as they are. Which does not imply you must do nothing and change nothing.

You are able to transcend people, to drive them to develop a nicer image of themselves. You give them something new that allows them to improve their conditions. You are focused, patient, respectful of other people and yourself, you can act with the right views.

Your social achievement and personal development will overcome social success gained through your determination, your initiatives and your attraction to positions that confer power. Very wilful, stubborn and combative faced with challenges and adversity, you will continually increase your knowledge of the environment in which you thrive. You like to have enough money to feel secure. You fight any feelings of lacking or frustration experienced when you were younger ensuring material tranquillity. So you commit yourself to work to make up this heritage. Even if, along the way, you have to guide your career differently due to your interests or a sudden calling. Meanwhile, you will be wiser with time, mostly thanks to the influence of a partner.

You have enough intuition and creative power to carry out your projects, even though they appear ambitions and fancy at first. This ability has its own challenge present in the central part of life: Other aspects point out that you will be successful, inasmuch as you will reach a position of power. Yet, expect highs and lows.

During this life, you plan to help, take care and listen to the people around you. Stand up for your responsibilities. Express more your aesthetic sense. Another lesson will deal with your capacity to carry out a constant and lasting effort, without giving up.

Let's deepen the analysis. You work accordingly to your deep desires, which are often outwardly oriented towards others' needs. You will commit yourself through writing. You are very influenced by your partner. Are you sure you behave the right way with the people around you?

You will not be able to quench your thirst of sex with a very special person. Yet, this does not mean you will have no relationship at all with this latter. You don't have the same education, your ways of thinking are different. Some tensions are likely to occur. You will resume studies on the late. You might even set up a sort of challenge with your partner as far as your intellectual skills are concerned. The odds are overwhelming that you will be interested in esoteric matters one day or other. You will have an important age gap with one of your partners. You are connected with your partner through a karmic link. You will be a self made man. You will need to have a creative activity in your free time.

YOUR RELATIONS

You are completely geared towards the search for a companion and/or an ideal activity to the point of being unable to fully get involved with others or vis à vis a job when you realize the limitations. That's why it's difficult for you to commit long term. Something suggests to you that perfection can only be found elsewhere. However as you go through your experiences, learn how to relativise this point of view and agree to live your relational life fully, albeit short of your expectations. That said you are able to show real heart qualities highly valued by your loved ones.

Sexually, again, you need to achieve the perfect act so that you can turn into a skilful and attentive lover. You are focused more on the quality of performance and prefer to give everything to the point that you forget yourself. Enjoy receiving too.

YOUR KARMIC DEBTS

First, you may distinguish aspects of your existence where it will be necessary to put in a particular effort during several years. Th the end, it is always favorable as soon as you have taken conscience of the problem, and that you fully stand for it.

You appear distant compared to certain contingencies of life as a form of wisdom enabling you to take the necessary step back.

When faced with everyday problems, you dwell within yourself and explore introspection.

Your chart shows you have an old soul (many incarnations). ?You've experienced many aspects of life and sometimes... you left a debt of some sort. As a result, some sudden events may occur in your life and generate profound changes. For instance, the brutal loss of a person you love, the treachery of a friend, a project that crumbles, the departure of a spouse... Numerology enables you to determine to what old pattern this consequence corresponds. Here are the 3 main karmic debts that you have chosen to erase.

You have a dent to pay in terms of your work. Yet it is past, you could not answer this before certain tasks, you do not wish to assume. Suddenly, you are asked to work with rigour, consistency and thoroughness. Otherwise, there is a risk of conflict relating to all your commitments. It is at this price, that you will come to the end of this karma. In some cases, this may indicate a fear of death and all matters pertaining thereto. Today, you have now a lingering feeling of guilt and the feeling of owing something to another.

In the past you had a craving for excitement and love. Only in your past lives, you had no limits, no restraint in your conquests, and you had difficulty controlling your instincts. Easy pleasures followed another, to the point of disregarding the wishes of others. This almost obsessive desire in terms of love and your senses made you forget trivial circumstances and daily responsibilities.

Today, the temptation is there but life does not allow you to transfer as easily. Responsibilities are to be assumed. Your life is punctuated by events and somehow you no longer call the shots. Rather you appear to be led by the nose in love at work. Besides, your love life is not what you had in mind. Some relationships are impossible while others put you more in a state of submission. However, it is through your accountability and your ability to fulfill your obligations that you will find real satisfaction. It is in this way that you open the most beautiful doors.

In one or more past lives, you used your abilities to initiate, control, direct, to accumulate wealth for your

own benefit. You also used your strength and your power to gratify your sexual instincts, with scant regard for the lives of others. You are looking to integrate all kinds of community to better enjoy it. In fact, you trampled on the ideals of humanism and duty towards your neighbor.

To rectify this somehow, you've chosen, before you incarnated, to find it necessary to again use your knowledge and abilities to serve the greatest number. If you forget, many obstacles related to your past abuses may be in your way. Emotional flashback, non-recognition on the part of your loved ones or your peers may be your lot. You need to show kindness in your heart by opening yourself up, for example to charitable actions or just by giving a little of your time to the needy. Since you still have a great capacity to proceed, you should use it in the best way to move away from strictly selfish goals. Finally, by putting yourself at the top of the worst-off people in order to help them, you reach a level of satisfaction much higher than that obtained previously when you thought only of satisfying your own needs.

YOUR CHALLENGES

Your main challenge indicates that you should avoid spreading yourself too thinly by pursuing too many objectives at once. You often give the impression that you feel above the fray. It will be overcoming a form of bad faith and a tendency not to be the opportunist of service through your ability to use yourself for the ease of relatives in public, to get what you want through them. In fact this challenge should teach you how to focus, to set yourself up to complete what you plan but without isolating yourself from the world. The rationale for some events is to train yourself or retrain yourself for it. Furthermore, you shall fear neither introspection nor self-criticism. You humbly open up to others as to the forces of the Spirit, expressing your faith more deeply in what you do and in life.

For you, this major challenge is mainly characterized by the need to overcome your doubts and uncertainties about your ability to perform socially. This is due to events related to your past history. During your childhood, a lack of encouragement and recognition of your value left traces. Henceforth, you must remove blockages due to your heightened sensitivity and emotional ties of the past. This challenge may also involve secrets from childhood (secret child, unknown parentage etc). It is possible that the test involves a revolt against authority in order to find your family and/or socioprofessional emancipation. This challenge also asks you to see your emotional aspirations and accept that others do not necessarily respond to all your criteria. Otherwise, you could experience a form of dual solitude. Until you are 45 or so, You take on another challenge that will show itself through A need to assert your point of view and to justify your own initiatives without taking the time to listen to others. You need to find a way to work with others without claiming that your way of seeing things is the only way. It is also about adapting to events and unexpected circumstances that may suddenly occur during this period.

Over 45, you will face a new challenge. Now, a strong need for change, earthly food or other, will be amazingly felt. You will manage it by remaining balanced, measured and patient, otherwise these pleasures would not be without consequence with respect to those who love you. This challenge is finding a balance between your quest for freedom and the aspirations of others. We must not neglect friendship, be attentive to your loved ones and deal with your environment and the opportunities that arise.

This challenge occurring after the forties focuses on the need to temper yourself when unpleasant situations arise (difficulties in relation to authority in particular, disappointing love life). Excessive, uncompromising, your anger may lead you to periods of isolation (distance from relatives). This challenge may also involve a necessary new career change. In fact, it is about overcoming a reactivity

due to wounded pride, the feeling of being different and therefore misunderstood. All pressures and impediments are actually there to test your individualism and see what more collective you can give when faced with them.

YOUR FIRST CYCLE

You need emotional presence otherwise frustration may lead you to rebel. It is necessary that boundaries are imposed on you but without aggressiveness. In fact you want to attract attention and show that you are able. This strength will assist you with your entry into working life. Already very young, you live in an environment that quickly develops your creative potential, inspires you and offers prospects for rapid social success.

This period is put into perspective with what you assume, namely your first realization that will expire in 1920, at the age of 30. To begin, you will benefit from a child from a family context or tenderness, affection is usually present. . Very soon, you will have to take responsibility and get involved. You develop your creativity and sociability. You have a sensitivity to anything that relates to aesthetics. This first stage of existence has as much weight and of the same nature as your way of life.

A new activity may require perseverance, courage and righteousness. Stability is at stake. The family home often monopolizes your attention. Your commitment is needed in this area.

Over 1929 until the age of 1938, your third achievement becomes synonymous of renewal in terms of ideas and activities. Your lifestyle may change thanks to your initiatives. Professional projects are favored as well as the affirmation of your abilities. The advice is to stay measured in your endeavors.

YOUR LAST CYCLE

The last period of your achievement begins in 1938, at the age of 48 years. You now look to develop yourself personally. Responsive to your needs, you could take a new direction in your life. You let yourself be inspired and widen your circle of relationships. You invest in original actions seeking to avoid conflicts if possible.

A new context change begins from your 58 years, i.e. in 1948: Now is the time for a constructive retreat, rewarding when you develop listening skills, humanism towards your neighbor. A commitment to a cause is likely. You do not have to fear insoluble worries while you continue to awaken yourself to the mysteries of this world, by traveling for example.

Job guidance

You need a job where you can, in an entirely independent way, bring a new dimension to a project. You are skilled to innovate and set ambitious projects on paper. But you mustn't find yourself under the sway of the wrong boss.

At the same time, your life path leads you to find a happy medium, a balance, levelheadedness. It brings about dualistic situations, giving you the choice between ease, temptation and a sense of responsibility and duty. It forces you to choose whether to see things as insurmountable tests or as levers to lift you up. Businesses related to service, consultancy, architecture, high performance sport requiring a specific act, are areas to consider as well.

You tend to use all your energy up, so as to achieve your goals. You could easily prove intuitive and able to manage projects, if you master your nervousness.

Deep within yourself, you yearn to assert and achieve yourself, you yearn for your personality to be boosted. You are loyal and you strive to keep managing your projects on your own.

Here are some fields of activities where opportunities may come about for you. This doesn't mean you necessarily love these jobs, but they're adapted to your abilities. Therefore, see in what way they can meet your desires : liberal jobs, management and human resources (business, marketing...), manual work...

Dependency and/or a breeding ground for allergies can also set in to relieve feelings of frustration when they arise. Ultimately what you want in any therapy, are the remedies to get back into shape and tone step by step. You are not as keen on a drastic remedy for immediate results. Also look to martial arts and disciplines for relaxation and the well-being of the body giving results over time.

Certain events in your life are likely to entail psychological troubles , such as insomnia, nervous breakdown. You might indulge in excessive tobacco, alcohol or drugs.
