You have a dense inner life, which is difficult to perceive by those around you, often forcing you to believe that it is necessary to fight and that it is necessary to get rid of all impossible situations. You like to think things over before you make any decision. You know how to strike a sound material balance around you.

## **YOUR LIFE PATH**

Since your birth, the path you have chosen shows that your destiny is that of a traveller's. You belong to those who explore and seek for an ideal, be it on earth or in the mind, it doesn't matter. It is also the promise of varied encounters and experiences. You might nevertheless feel broken apart between your thirst of absolute, of travels, and your need of accomplishing something material or to stay with the ones you love.

Your path leads you to the exploration of honesty. You are very touchy with whatever deals with will-power and ambition, you will try to strike a balance between your desire for power and your desire not to abuse it. Your aim consists in being able to be honest, although influential. Success without compromise is a real challenge. Power is too often associated with abuse. You have

chosen to prove the opposite, which will not be easy to achieve. If you happen to walk away from your goal, you will encounter people and events on your path which will bring you back to your purpose.

You make people react. You release such a powerful energy that you receive it back. This allows you to assess the impacts of your actions. You might even fear this strength of yours at times : but the mere fact of directing and steering it in a positive and generous way will ensure you success. In order to do so, you have to overcome your fears and look within yourself instead of focusing on material things.

If you manage to highlight your creative qualities, your intelligence and your honesty, you will be a respected person that people enjoy listening to. Nobody will oppose your ability to lead people and manage business. Meanwhile, you will be wiser with time, mostly thanks to the influence of a partner.

You have dynamic capacities. You have a strong sense of family values, even a bit chauvinistic at times. This ability has its own challenge present in the central part of life: Other aspects point out that you will face a love dilution. Yet, you will be taken care of, especially by the ones close to you. Beware of animals and accidents.

During this life, you plan to help, take care and listen to the people around you. Stand up for your responsibilities. Express more your aesthetic sense. Another lesson will deal with your capacity to accept others as they are. Include the people around you in your creative potential.

## **YOUR RELATIONS**

You have a lot to learn from people who can accept you as you are. For this, it is necessary that your partner can cope with your mood swings and your escapades, whilst trying to awaken your sensitive side. Indeed you are very receptive to this kind of person because ultimately, they will refer you to this other you that you're not sure how to tame. Showing your intimacy and vulnerability is not easy. Thank those who help you with this. Because by awakening this deep nature, they predispose you to act kindly.

Sexually, your needs are important. This area is seen as a way to connect the physical, emotional and mental areas. Again, it is necessary to find a balance between a desire to dominate, to impose yourself on others and the search for a more sensitive and open expression.

## **YOUR KARMIC DEBTS**

First, you may distinguish aspects of your existence where it will be necessary to put in a particular effort during several years. Th the end, it is always favorable as soon as you have taken conscience of the problem, and that you fully stand for it.

You appear distant compared to certain contingencies of life as a form of wisdom enabling you to

take the necessary step back.

When faced with everyday problems, you dwell within yourself and explore introspection.

Your chart shows you have an old soul (many incarnations). You've experienced many aspects of life and sometimes... you left a debt of some sort. As a result, some sudden events may occur in your life and generate profound changes. For instance, the brutal loss of a person you love, the treachery of a friend, a project that crumbles, the departure of a spouse... Numerology enables you to determine to what old pattern this consequence corresponds.

Here is the main karmic debt you have chosen to erase.

You have a debt relating to the fact that you have given your word to another (spouse, associate, partner), depriving it of its expression. In any such past life, you find it difficult to bear criticism or remarks, while being able to use this weapon yourself. You tend to see flaws (supposedly) in your partners instead of their qualities. Your obsessive fears could hamper your life, and they are still evident today, including the need for evidence on everything.

Today you need to understand your partner (who is often the same soul once known) and let them their rightful place by treating them equally. However, your partners can turn this evidence that you subjected them to back on you and difficulties of expression, inability to make your voice heard by your partner and your associates in general, may well arise.

## **YOUR CHALLENGES**

Your main challenge indicates that you must demonstrate your ability to make a decision and stick to it, avoiding making your loved ones responsible for your failures. It will affirm a determination and a measured willingness by counting on yourself first, in the face of adversity. Conversely, there may be a lack of confidence in your ability to take the initiative, to identify yourself. Yet, it will be a question of demanding situations requiring courage which you could rather prefer to dodge. So you need to overcome a lack of confidence in your abilities and realize that you can also take initiatives and identify yourself. Otherwise, a paranoid tendency could develop in you.

For you, this major challenge is mainly characterized by your excessive expectations. Even if you are able to invest in others, you are too interested in a return. It is also about overcoming a tendency to shape others in your image, to expect an ideal being. Do not set the bar too high. Otherwise you choose (unless there are life circumstances responsible for it) to live alone. In fact, this challenge requires you to express your emotional desires in a balanced way.

Until you are 42 or so, You take on another challenge that will show itself through associations, collaborations that you should make you lose sight of your identity. It will be necessary to overcome your narrow view of certain situations to see that your partnerships are opportunities to share and develop listening and cooperation skills, without entering into servitude. You will also need to overcome the frustration stage and your fear of feeling sometimes decreased compared to the other person to the point of choosing to flee and refusing to commit.

This first minor challenge is defined by the need to temper yourself by not imposing yourself on your loved ones as much. It is about getting out of your family unit experienced as a type of cocoon, so as to face an external reality that seems more difficult to you. Paradoxically, you need to show yourself to be tougher outside of the family context and softer, less of a taskmaster, less fickle towards your loved ones. This relates to what has been said before on the maternal image. This challenge consists of accepting your weaknesses, your errors as well as your childrens' mistakes, if you have any. You have to manage your excessive, sometimes poorly controlled, emotions, reflects a type of immaturity, which often leads you to demonstrate inappropriate

responsiveness.

Over 42, you will face a new challenge. Now, you need to find a balance in a context very different from your previous framework, characterized in particular by deep changes in your physical and financial situation. This challenge asks you to seize the opportunities that present themselves in spite of their unfamiliar and even strange character. You should face them; affirm your determination and your will, while respecting your opponents.

This challenge occurring after the forties focuses on the need to overcome a kind of naivety that can serve in certain situations. Pay attention to your anger which may make you feel betrayed if you turn against yourself. Align yourself with all your will, and having this, towards constructive purposes. Overcome your uncertainties. It is also about realizing over time that your words can hurt in order to learn to be more measured in your comments. Also before when committing yourself. Since few things scare you, you still don't evaluate the consequences of your actions.

Travel is likely. In this regard, there is a real possibility of meeting with an audience in terms of your artistic or literary achievements.

And you let others carry them out. You can sometimes get angry, as soon as your sense of absolute and righteousness is foiled. You must become less extreme.

At the same time, your life path pushes you towards others, having to give rather than receive, helping rather than being rescued, and being comforted. It is sometimes a challenging journey with its share of trials but also very rewarding in terms of experience. More comfortable in independent careers or positions of authority, you are capable of working hard. Your dynamism expresses itself then you can make decisions, proceed, build. As long as you are honest and don't underestimate yourself, your energy is wonderful and you receive recognition. Serving the largest number possible is a maxim that suits you well. Sometimes these life paths will give you hassle.

You tend to strive for a meaning, for whatever deals with tradition and set values. You are puzzled by what is new and original. You are reliable.
